# SERVO VOLTAGE STABILIZER

## Rating - 5KVA to 2500KVA

**APS**  
APEX POWER SYSTEMS

Power Up with Confidence, Power Up with Apex

### PROTECTIONS

- UNDER OVER VOLTAGE
- PHASE LOSS
- PHASE SEQUENCE
- NEUTRAL FAILURE CUT OFF
- OVER LOAD PROTECTION

Apex Is Involved in manufacturing of voltage stabilizers to regulate the input voltage over two decades. Over the years we have gained practical knowledge in the power industry and can help you with our expertise in the LV electrical system. We can cater with all types of Voltage regulation with different types of models like Air/ Oil Cooled Linear/ Dimmerstat as well as Static Type. We have 4500+ installations in North India. We are catering for Residential, Commercial, Retails in High Streets, Individual machines like CNC, Treadmills, Lifts, Compressors, etc and Special Purpose Machines from China/Japan/Germany which have a different voltage requirement.

Isn't your site unique? Doesn't it have its own set of unique challenges? Then the solution should also be unique. At Apex we provide you solutions as per your site requirements. For dusty atmospheric condition, we recommend oil cooled; and for non-dusty atmosphere we can offer air cooled servo voltage stabilizers. We cater to outdoor installations also.

## Various Voltage Ranges we can design:

Input Range for Three Phase

**340-470 Volts**  
**300 - 470Volts**  
**240to 460**  
**Volts**  
**207 to 440 Volts**  
**Output**  
**380/400/415 Volts**

Input Range for Single Phase

**170 to 270 Volts**  
**140 to 260 Volts**  
**120 to 250 Volts**  
**207 to 440 Volts**  
**Output 220/230 Volts.**

### OTHER PRODUCTS

- AIR/OIL COOLED STABILIZER
- PHASE SEQ CORRECTOR
- ISOLATION TRANSFORMER
- STEP DOWN TRANSFORMER
- ONLINE UPS

# ABOUT US

Apex Power Systems was established in 1999 by a group of visionaries who were experts and dynamic professionals in the field of power management. Committed to create reliable solutions, Apex Power Systems has grown into a well-known brand under the seasoned leadership of Mr. Sachin Taneja.

The Team of Apex Power Systems, has immense knowledge and business acumen that has been a result of his association with brands like Kirloskar in his prime years. The team of Apex could see through its perceptive eyes and realized that voltage disturbances like sags, swells, spikes, transients, and HF noises in the Electrical supply needed to be eliminated and provide a reliable power solution for the future
